How many pennies are there?

Guess as close as you can?

Give a guess you know is too high

Give a guess you know is too low

What do you need to know to be able to find out how many pennies are used to make the pyramid?

United States Mint Coins and Medals Program 7/22/11 1:

UNITED STATES MIN

Specifications

Composition: Copper-Plated Zinc: 2.5% Cu, Balance Zn

 Weight:
 2.500 g

 Diameter:
 0.750 in., 19.05 mm

 Thickness:
 1.55 mm

Edge: Plain

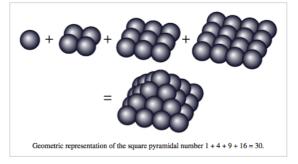

2011 Lincoln One-Cent Revers

Square pyramidal number

In mathematics, a **pyramid number**, or **square pyramidal number**, is a figurate number that represents the number of stacked spheres in a pyramid with a square base. Square pyramidal numbers also solve the problem of counting the number of squares in an $n \times n$ grid.

Formula

The first few square pyramidal numbers are:

1, 5, 14, 30, 55, 91, 140, 204, 285, 385, 506, 650, 819 (sequence A000330 in OEIS).
